

Case Study

Hill-Rom

8775 Research Drive, Irvine, Ca 92616

Square Footage:
14,592 SF

**Project
Duration:**
16 weeks

Client:
Hill-Rom

Architect:
ARC-ID
Corporation

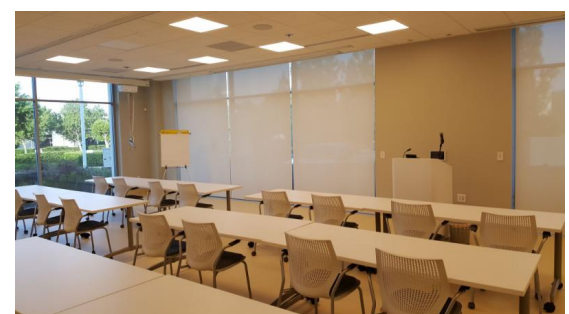

Fast Facts

- Project construction consisting of full demolition of the pre-existing space & complete tenant improvement including new walls, doors, ceiling systems, flooring, mechanical and electrical throughout.
- Structural steel support infrastructure in walls and ceilings for medical lift and boom equipment.
- Structural and architectural ceiling elements constructed by Crew Builders Inc. self perform team.
- Decorative floating soffits throughout.
- State of the art training and conference room centers with high end audio/visual systems.
- Security access system throughout.
- Glass sidelights for showrooms.
- Lycos rail system for hospital patient lift system in 6 different showrooms

Crew Builders helped Hill-Rom construct a comprehensive space to exhibit their medical technology products in an array of detailed showrooms. Our priority was to assure that the entire space represents Hill-Rom's vision to showcase their products and deliver their mission of enhancing outcomes for patients and their caregivers around the world.
